## SECTION 4: First aid measures

### 4.1. Description of first aid measures

inhalation : Inhalation of dust or metal fumes may cause Argyria, a blue green discoloration of the skin, mucous membranes and eyes. Also, may cause irritation of the respiratory tract or metal fume fever with symptoms of fever, chills, nausea, chest tightness or metallic taste. If inhaled, remove from exposure, move to fresh air and seek immediate medical attention. Use mechanical ventilation or respiratory protection to avoid inhaling metal fumes.

skin contact : Localized Argyria or dermatitis may result from contact. Contact may cause allergic reaction or sensitization. Remove contaminated clothing. Thoroughly wash affected area with soap and water. Consult with doctor.

eye contact : Dust may cause irritation. In the case of eye contact, flush with large amounts of water for at least 15 minutes and seek immediate medical attention.

ingestion : If ingested, may cause generalized Argyria, and may irritate gastrointestinal tract. Seek emergency medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

Exposure to dust or metal fumes may irritate respiratory system and result in metal fume fever.

### 4.3. Indication of any immediate medical attention and special treatment needed

### 6.2. Environmental precautions

No special precautions for bulk solid material. Do not let dust or turnings enter drains.

### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up : Sweep or shovel bulk solid and store in sealed container prior to disposal/recycle. Avoid static discharge when collecting dust or fine turnings which may be flammable.

### 6.4. Reference to other sections

See Section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Precautions for safe handling : Further processing of solid material may generate combustible dust or turnings. Provide adequate ventilation and routine maintenance to prevent the buildup of combustible dust. Implement control measures to reduce the generation of static discharge where dust is created.

### 7.2. Conditions for safe storage, including any incompatibilities

Conditions for Safe Storage : Keep container closed when not in use.
